

EHESP

EHESP SCHOOL OF PUBLIC HEALTH

Your needs in Public Health

EHESP School of Public Health is the french reference for public health managers.

EHESP has four missions:

- to provide initial training for senior public sector managers and inspectors in the health and welfare services;
- to provide higher education in public health, in close partnership with other institutions;
- to contribute to research in public health;
- to promote international relations, in particular through exchanges with similar educational institutions.

EHESP School of Public Health is a leading public sector scientific, cultural and professional institution under the authority of the French Ministries of Health, Welfare, Higher Education and Research. EHESP is a member of the university and institution communities "Université Sorbonne Paris Cité" and "Université Bretagne Loire".

Public Health Doctoral Network

The network is led by EHESP and brings together 9 partner doctoral schools. They cover a number of complementary domains throughout France: biostatistics and information sciences; epidemiology; occupational health and environmental sciences; economics, management, law and health policy; social and behavioral sciences and nursing and paramedical sciences.

The aim of the public health doctoral network is to facilitate PhD students' multidisciplinary education and to develop their interdisciplinary and international practice that will, in the long term, lead to the emergence of a community of professionals and researchers sharing a common public health culture.

Professional Certification

- ▶ CAFDES (diploma in Management of Health, Welfare and Care Facilities)

A COMPREHENSIVE SELECTION OF PROFESSIONAL DEVELOPMENT AND LIFELONG LEARNING PROGRAMS

All EHESP programs are available as professional development programs. Each year, the EHESP welcomes over 9,000 trainees, registered on:

- ▶ department of Quantitative Methods in Public Health,
- ▶ department of Environmental and Occupational Health and Sanitary Engineering,
- ▶ institute of Management,
- ▶ department of Human and Social Sciences.

1 environment and health study and research laboratory (LERES)

Strong international relations

Creating and promoting a network of partners

EHESP's goal in developing strong international relations is to create and promote a network of partners to provide students with an international education and encourage international mobility. These partnerships are also reflected in hosting foreign students and teachers and in the creation of joint degree programs.

Transferring skills

The international relations develop and build human resource capacities in health and welfare services of the partner countries through training, assessment and strategic consulting actions.

Contributing to international research

They also bring together teams from around the world to cooperate on EHESP. EHESP has developed a wide range of training and research partnerships with universities in Europe and the Mediterranean region (Algeria, Denmark, Germany, Lebanon, Morocco, Poland, Spain, The Netherlands, United Kingdom); in the Americas (Argentina, Brazil, Canada and the USA); in Africa (Burkina Faso, Ivory Coast, Republic of Congo) and in Asia (China, Singapore, Vietnam).
